Mimta Metal Group

Building dreams since 1984

MİMTA ARCHITECTS SINCE 1984

About Us

Mimta Architecture Engeneering Contracting LLC was established in 1984 as a contractor firm to design and implement all industrial works.

By the beginning of 2010, Mimta Architecture launched its services with the new brand “Mimta Metal Solutions”. Since then company started to manufacture Stainless Steel Staircase Railing and Connection Accessories in Balustrades and Handrails for the leading firms at Gulf countries and former Soviet countries.

In the developing process Mimta Metal Solutions;

- Added its product category Stainless Steel Glass Connection Accessories in accordance with market needs.
- Is a leading company and well placed in his sector both in domestic and foreign markets with the conception of high quality production, delivery on time and consecutive service and has more than 2500 kinds of product varieties which have been produced by his own moulds.
- Has highly experienced Project Department that can also make special productions according to the customer needs and their special demands
- Production is realized by different steps with extremely careful labor.
- Approved customer demands are transferred to project department, design works, technical calculations and production drawings for the orders are executed by our professional project team.

About Us

At period of production it consists of four main sections as ;

- Welded production
- Machining
- Surface finishing
- Blasting

The experience that Mimta Metal Solutions gain from its activities till now is important for the development of our new products. All of our products is designed in high quality and taking care of safety, ease of application. In the wake of being committed to new technologies and R&D activities.

Mimta Metal Solutions also ;

- Made an investment of 5+1 Axis Laser Machine and is ready to meet the demands of manufacturers who need multi axis laser cutting products.
- Has continuing it’s productions in 7.200 m2 factory area in Ankara Sincan Organize Sanayi Region
- Meeting , customer expectations for quality, in terms of diversity and intensive, contain alive and active features and also knows that the way of meeting these expectations is only provided by following latest international developments and renewing the quality of our products constantly.
- Aims providing customer’s satisfaction, obtaining benefits for society and their own staff in long term.
- Has adopted in principle a management style focusing on quality and based on employee participation. The organizations willing lasting success has to create a strong culture of union. Our studies are going on in our enterprise in which such a union is created in order to improve customer satisfaction year by year.

Our Philosophy

Recognizing the need and the budget is the primary condition for design.

Ahmet S. Omay - Chairman -
Founder /Head Architect

MİMTΛ

ARCHITECTURAL AND ENGINEERING DESIGN

Presentations are communication tools that can be used as demonstrations, lectures, speeches, reports, and more.
It is presented before an audience.

CONSTRUCTION PROJECT MANAGEMENT

To create a stunning presentation, it's best to simplify your thoughts. Start with an outline of topics and identify highlights, which can be applied to whatever subject you plan on discussing.

CONSULTATION

If you’d like to add more content to your presentation, there are plenty of options. You can include photos of your team, descriptions of products, or your goals as a company.
